The simulation requires you to trade stocks in investopedia. Minimum numbers of trades are 2 trades per week. It is graded based upon the number of trades, effort, and performances. We use investopedia.com for simulation. You need to submit your trading history twice, one is due on 10/17/2017 and the other is due on 11/21/2017. Each team can have three students. Fill out the
following template for 10 of your trades. I need your summary trading history printed out from the investopedia.

*Industry Analysis.* I will assign some firms for you to study. You should analyze its industry and its' main competitor in detail.

a), Describe what they do.
b), Calculate their fair prices (using FCF models we cover in the class). Also consider PE approach.
c), Discuss their financial ratios, over the years and compare with competitors.
d), Discuss the general macro economy and the trends in your industry, and most importantly, the firms’ competitiveness.

Each presentation is about 30 minutes and we will use the 11/21/2017 class for this presentation. You need to prepare powerpoint slides for your presentation. Please Email me your slides and turn in a hardcopy on the day you present. Grading of project is based on the depth of your study and the clarity of your presentation.

*Homeworks.* Each student submit his/her own solutions.

Exam 1 and 2 are 75 minutes long. Final exam in 120 minutes long. All exams consist of both multiple choices questions and problems

*Class participation and discussion:* It is based on the quality of your discussion. Notes/cases will be provided before class for reading and discussion.
