**Final Written Report**

Upon completing the internship, students must complete a written report, which discusses their internship experience. The written report should consist of a brief introduction about the firm itself. The next section should consist of a descriptive summary of the duties performed and responsibilities assumed by the student during his or her internship assignment. The remainder of the paper, the most substantial part of the paper, should consist of a discussion about what the student has learned as a result of the internship experience and elaborate on how the experience has enhanced the student’s education. One important aspect of the written report is that the student must specifically relate his or her internship experience to the list of Student Learning Outcomes appearing in this syllabus.

The written paper will be graded for grammar, flow and clear articulation of the critical thinking required to relate the internship experience to the learning outcomes. The paper shall not exceed four pages. The page requirement will require the student to write in a precise and concise manner.
