This syllabus is subject to change as the semester/session progresses to accommodate instructional and/or student needs.

Instructor: Nir Kshetri, Ph D
Office location: 368 BRYAN
Phone: 334-4530 (O)

Email: nbkshetri@uncg.edu
Office hours: T1-2 PM
Fax: 334-5580

Texts

None

Prerequisites/Co-requisites:

MBA 703 (Economic Policies and the Impact on Global Outcomes) and the pre-requisite courses are MBA 706 (Marketing Management), MBA 707 (Financial Management), MBA 708 (Operations for Competitive Advantage), MBA 716 (Leadership and Sustainable Business) and MBA 717 (Technology and Innovation).

Catalog Description:

Principles, practices and processes of conducting businesses in the globalized environment.

Student Learning Outcomes:

At the completion of the course, students will be able to:

1) Identify the key ethical and environmental issues that are typically connected with international business.
2) Describe the public policy and political factors that can affect the risks of entering and
operating in a foreign country.
3) Analyze institutional, cultural and economic differences affecting business across regions of the world.
4) Analyze the pros and cons of various methods of effectively entering and operating in a foreign country.
5) Explain the importance of managing and leading in a global economy while remaining responsible to the local particularities (in other words, “glocally”) and relate it to the international strategies available for multinational companies.

Teaching Methods and Assignments for Achieving Learning Outcomes:

The course will be organized around online discussions, exams, case analysis and research on various aspects of international business.

Evaluation and Grading Policy

Online Participation and Contribution (200 points)

Participation in online discussion is an important component of this course. You are expected to login regularly, read items posted by other course participants and contribute to the discussion topics. The purpose of online discussions is to supplement the materials covered in class. Your posts enhance and enrich not only your own learning but also that of your fellow course participants.

You are required to post at least TEN items.

One of the posts is required to be on the topic “Online video contribution”. Your posts on this topic will be about videos available online (e.g., YouTube) to help understand some concepts related to global business. As an example of a post, see the item “McDonald's Celebrates 20th Birthday in Russia” (Nir Kshetri).

Discussion posts are evaluated using the following criteria:

a) Have you done additional research and included source(s) of your information? You need to include each reference in its complete form, not just the link.
b) Have you related your discussion with materials from your textbook or those discussed in the class?
c) Have you related your posts with the current business related events (some of them)?
d) Do your posts refer to other course participants’ posts (some of them)?
e) Are your posts evenly distributed throughout the session/semester?
f) Are they sufficient long (that is, at least 2-3 paragraphs)?
g) Are they insightful and provide the reader with new ideas?

The last day for posting on Discussions is 6/22/2020. Please copy all your posts in **ONE** word document and email me on or before 6/23/2020. Make sure that each post has the date you posted.

Any item posted (your original post as well as your comments/responses to the posts of other participants) will count as a post.

**Quiz 1 (25 points)**

More details will be available.

**Quiz 2 (25 points)**

More details will be available.

**Exam 1 (125 points)**

More details will be available.

**Exam 2 (125 points)**

More details will be available.

**Exam 3 (200 points)**

More details will be available.

**Assignments (300 points): (Assignment 1: 100 points, Assignment 2: 200 points)**

**Assignment 1:**

Case Analysis of the following:
Facebook’s Libra may be quite attractive in developing countries (https://theconversation.com/facebook-s-libra-may-be-quite-attractive-in-developing-countries-119206)

You will prepare a report on the potential success of Facebook’s cryptocurrency Libra in developing countries. This assignment is closely related to **Part B: Institutional Environment and the Business Climate**.

You are expected to cover the following:

a) Provide general assessments of Facebook’s Libra in the context of developing countries.

b) Perform a SWOT analysis for Facebook from the standpoint of the deployment of Libra in developing countries.

c) How would technological, political, policy-related, legal, cultural and consumer-related factors affect the acceptance, diffusion and adoption of Libra in developing countries?

d) What are some of the key benefits that Libra would provide to developing countries?

e) Would you recommend that Facebook launch Libra in developing countries? If the answer is “Yes”, which should be the first developing country for Libra to be introduced? (Hint: As noted in the article, you might want to consider big markets such as a) Brazil and b) India). Please explain your recommendation in detail. If your recommendation is against launching Libra, then also please explain in detail possibly with an illustration of a developing country in terms of the barriers Libra might face.

Please cite all the sources of your information. Your analysis is expected to be about 2,500-3,000 words in length excluding tables, figures and references.

More details are available on Canvas. Please see “Assignment 1: Case analysis guidelines” in Discussions.

**Assignment 2**

In Assignment 2, you will compare the current state of the crowdfunding (CF) industry/market and supporting economic, political and cultural environments in two countries/economies. The two countries/economies you selected must be from the list in the item---Assignment 2---countries/economies--- in Discussions.

First, please prepare a table comparing the economies you selected in terms of the size of the current CF industry and market based on the latest available data as well as economic, political and cultural factors that are likely to affect the growth of the CF industry and market. For an example, see Table 1: The development of the CF industry and related institutions: a comparison of Japan and the U.K. (p. 101) in the article "Success of Crowd-Based Online Technology in Fundraising: An Institutional Perspective" (Reading 17). You may also include data related to “Trust index” for the two economies you selected (see: https://ourworldindata.org/trust)
You are expected to answer the following questions:

f) Provide general assessments of the stages of the CF industries and markets in the two economies you selected.
g) Which of the two economies you selected has a better developed CF industry and why?
h) How do economic, political and cultural factors explain the differences between the CF industries of the two economies you selected?
i) How do economic, political and cultural factors in the two countries you selected affect entrepreneurs’ willingness to go for equity-based crowdfunding (ECF) instead of other conventional sources of entrepreneurial financing?
j) Are the effects of economic, political and cultural factors different on ECF compared to other types of CF in the two countries you selected?
k) What recommendations would you provide for the regulators of the economies you selected to develop the CF industry?
l) If the U.S. CF platform, SeedInvest enters into one of the countries you selected, what modifications in its business model does it need to make to account for those differences?

Please cite all the sources of your information. To cite your sources, follow the format used in the article "Success of Crowd-Based Online Technology in Fundraising: An Institutional Perspective" as close as possible.

Your analysis is expected to be about 4,000 words in length excluding tables, figures and references.

**Grading Scale:**

Points possible for the various evaluation components are summarized below:

<table>
<thead>
<tr>
<th>Component</th>
<th>Points possible</th>
</tr>
</thead>
<tbody>
<tr>
<td>Online Participation and Contribution</td>
<td>200</td>
</tr>
<tr>
<td>Quiz 1</td>
<td>25</td>
</tr>
<tr>
<td>Quiz 2</td>
<td>25</td>
</tr>
<tr>
<td>Exam 1</td>
<td>125</td>
</tr>
<tr>
<td>Exam 2</td>
<td>125</td>

</tbody>
</table>

**Scoring System for the Final Grade**

The following scoring system will be used for the final grade.

<table>
<thead>
<tr>
<th>Score</th>
<th>Grade</th>
<th>Score</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>960 – 1,000</td>
<td>A</td>
<td>790 – 819</td>
<td>B-</td>
</tr>
</tbody>
</table>
The following criteria will apply to the grading of assignments

A: Work that demonstrates not only a clear understanding of the material under study, but also a superior ability to utilize that material in the assignment. All criteria are met. The student’s work goes beyond the task and contains additional, unexpected or outstanding features.

B: Work that demonstrates a good understanding of the material under study, and utilizes the material well in the assignment. The student meets the assignment criteria, with few errors or omissions.

C: Work that fails to demonstrate a basic or technical understanding of the material under study, and fails to use relevant material in the assignment. Work may not address one or more criteria or may not accomplish what was asked.

F: Work that is incomplete, inappropriate and/or shows little or no comprehension of the material under study.

Reading 19: Kshetri, Nir (2018)."Informal institutions and Internet-based equity crowdfunding," Journal of International Management

**Academic Integrity Policy:**
Students are expected to adhere to the Academic Integrity Policy on all assignments and tests. The syllabus will provide a link to the complete description of the Academic Integrity Policy as found in the UNCG Graduate Bulletin. http://academicintegrity.uncg.edu/complete/

Final Examination:

There will be no final proctored examination.

Additional Requirements:

Late Work Penalty

Assignments may not be submitted late. Exceptions will be granted only in rare circumstances and be evaluated on a case-by-case basis.

Expectations of Students

Students in the Bryan School are also expected to adhere to the Student Code of Conduct. Further details may be found at http://academicintegrity.uncg.edu/complete/ and http://studentconduct.uncg.edu/policy/code/. The Bryan School has additional expectations and guidelines for students to follow which can be found at http://www.uncg.edu/BAE/faculty_student_guidelines.pdf.

Expectations of Faculty

The Bryan School expects its faculty to conform to all existing UNCG codes and policies. These are found at http://provost.uncg.edu/faculty/h_section4.asp In addition, the Bryan School has expectations and guidelines for faculty to follow which can be found at http://www.uncg.edu/BAE/faculty_student_guidelines.pdf.
Instructor Information

Nir Kshetri is Professor at University of North Carolina-Greensboro and a research fellow at Kobe University. He has authored nine books, one of which has been selected as an Outstanding Academic Title by Choice Magazine. He has also published about 150 articles in various journals. Nir has been quoted/interviewed and/or his work has been featured by hundreds of media outlets worldwide such as Wall Street Journal, Foreign Policy, Scientific American, Bloomberg TV, CBS News, TV Mundo (Peru), ABF TV (Brazil), Fortune, Time, Christian Science Monitor, SF Gate, U.S. News & World Report, Asia Times, Channel News Asia, New York Daily News, New Boston Post, Observer and Salon. His scholarly works and popular press publications have millions of readers worldwide. In March 2018, he gave a TED Talk about the potential roles of cryptocurrencies in fighting poverty.

Nir is the world's 2nd most cited and 6th most published author in blockchain research during 2015-2019 based on the analysis of papers published in journals indexed in Web of Science citation database (Central University of Tamil Nadu, 2020). He was the winner of IEEE IT Professional's Most Popular Paper Award in 2019 and 2018 and Outstanding Contribution in Authorships award in 2019. He also won the Blockchain Connect Conference’s Most Influential Blockchain Research Paper in 2019. Nir was the winner of 2016 Bryan School Senior Research Excellence Award. He was also awarded Pacific Telecommunication Council’s Meheroo Jussawalla Research Paper Prize twice (2010 and 2008).

He has provided consulting services to Asian Development Bank and various UN agencies. In December 2018, he spoke at the Plenary Session, Digital Technology and Sustainable Development: South-South Cooperation in the Digital World at the Hong Kong Summit of the United Nations Office for South-South Cooperation (UNOSSC) and the Finance Center for South-South Cooperation (FCSSC), a special consultative body of the United Nations Economic and Social Council (ECOSOC).

Nir has travelled to over 100 countries. He has taught classes or presented research papers (about 200) at various national and international meetings/conference in Azerbaijan, Argentina, Belgium, Canada, Chile, China, Colombia, Croatia, Czech Republic, Denmark, Dominican Republic, Ecuador, Estonia, France, Germany, Greece, Guatemala, Hong Kong, India, Indonesia, Italy, Japan, Kazakhstan, Lithuania, Macao, Malaysia, Mexico, Mongolia, Morocco, Myanmar, Nepal, New Zealand, Oman, Peru, Portugal, Rwanda, Romania, Serbia, Sri Lanka, South Africa, South Korea, Singapore, Slovenia, Sri Lanka, Sweden, Switzerland, Thailand, Taiwan, the Philippines, the U.K., the U.S., Tunisia, Turkey, Uganda, United Arab Emirates, Vanuatu and Vietnam.
