## Technology and Course Expectations

### COMPUTER RESOURCES AND INTERNET ACCESS

**Online Learning:** This is an online class where most of your learning will be done through use of the textbook and materials available online. You must have **reliable high-speed** access to the internet and a reliable computer to take this class. Saying that you are having problems with your computer is not a valid excuse for not completing assignments. Most materials for this course, including exams, will be completed online through MyLab Accounting (see below for further details).

Check your UNCG email **DAILY** for email messages from me and check the Canvas Announcements regularly. I will post announcements and other information on Canvas. Use my email address at the top of page one of this syllabus when sending me messages. **Failing to read the syllabus, emails or Canvas announcements/updates will not constitute an excuse for missed work, assignments or exams.**

Technology Issues, Canvas and MyLab: It is your responsibility to have your technology up and running in a reliable manner. Saying that you are having problems with your technology is not a valid excuse for not completing assignments.

- MyLab Technical Support: If you are experiencing a problem with the MyLab platform, then please visit [http://help.pearsoncmg.com/integration/cg/canvas/student/en/content/support.htm](http://help.pearsoncmg.com/integration/cg/canvas/student/en/content/support.htm)

- For challenges with the University System: Please use 6TECH [https://its.uncg.edu/Help/6TECH/](https://its.uncg.edu/Help/6TECH/)
  Telephone: 336-256-TECH (8324)
  Email: 6-TECH@uncg.edu

**Class Schedule:**

Online learning **does not** mean that you can work at your own pace or on your own schedule. There is a detailed schedule of the material to be covered and when it will be covered. The assignments have scheduled windows when you must complete them. **I will work with you as best I can, but ultimately it is your responsibility to look at this schedule and ensure you are able to meet these commitments. If your work schedule, travel schedule or other responsibilities will not allow you to complete the required assignments at the set times, then you need to take this class in a different term.**

**Grading Details and Student Support**

**Class Participation (Canvas Discussion Boards & MyLab Quizzes):**

Participation grades are based on responses to completion of MyLab quizzes (open book, these questions
are similar to exam-type questions). The due dates are available in Canvas and MyLab and will help you ensure that you are staying on track with the material. You have 3 attempts to answer the quiz questions. These assignments must be submitted by the due date.

**Homework Policies and Tips:**

- Homework is intended to help your comprehension of the chapter material and can be time consuming. Plan ahead and do not wait until the last minute to complete homework assignments.
- Homework problems come directly from the end of each chapter in your textbook but are often algorithmic (meaning the numbers used in the problems in MyLab may differ from those in the textbook).
- Take the time to UNDERSTAND the homework. Reviewing completed homework assignments and making sure you understand the correct answers is a great way to study for exams.
- MyLab Accounting (MyLab) can be accessed using the link in Canvas.
- **Late homework will not be accepted. There are no exceptions. Completing the assignment before the due date reduces your chance of missing an assignment because of an illness or emergency.**
- You are allowed unlimited attempts at each homework question and you have the availability of the “Help Me Solve This” function.
- If you are having trouble with your homework, email to set up an appointment.
- The due dates for all assignments are listed on the “Tentative Schedule of Class Topics and Assignments” included in the related spreadsheet. They are also available in Canvas and MyLab. If, for some reason, an assignment due date is changed, the change will be posted as an announcement in Canvas. You are responsible for checking the syllabus and reading all announcements in Canvas.
- Homework grades will be posted in Canvas. You are responsible for ensuring that the grade in Canvas is the same as the grade in MyLab. Please contact me if there is a problem with your grade in Canvas.
- If you are experiencing a problem with the MyLab website, please call the MyLab Customer Help Desk at (800) 677-6337 or visit [http://pearsonmylabandmastering.com/students/support/](http://pearsonmylabandmastering.com/students/support/). If the problem you are experiencing means that you cannot complete or submit your assignment, please send me an email **before the assignment is due** to let me know.

**Exam Policies:**

- Exams will be administered through MyLab. You will be allowed to use a calculator and blank paper. **Exams are closed book.** You may not access the textbook, notes, or MyLab resources or communicate with other persons during exams.
- You will need access to reliable computer and internet during the exam. Please be sure to run computer updates BEFORE you begin the exam. Also, ensure that you enable any pop-up blockers BEFORE you begin the exam.
- Cell phones or other devices may not be used in place of calculators.
- Mid-term exams are not cumulative but are closed book. The final exam **IS** cumulative and closed book.
- Students are expected to complete the exams without breaks.
- Exams must be completed within the 18 hour window for each exam. If you do not complete the midterm exams in the time window, your grade for that exam will be a zero.
