INSTRUCTOR INFORMATION
Name: Indika Dissanayake
Office: 436 Bryan Building
E-mail address: i_dissan@uncg.edu
Office Phone: 336-334-4988 [Please do not leave voice-mail – use e-mail instead.]
Zoom Meeting Monday 7:00 – 8:15 p.m.

CATALOG DESCRIPTION
Fundamental concepts of database management systems, including database design, implementation, and the use of the SQL query language. Credit Hours: 3

STUDENT LEARNING OUTCOMES (SLO) / COURSE OBJECTIVES
a) Conceptualize database management systems and data models
b) Implement and manage database systems using SQL query language

Upon successful completion of this course students will be able to:
1. Model database requirements using the Entity-Relationship diagram;
2. Apply the concepts of normalization in database design;
3. Design and implement a relational database;
4. Address issues related to concurrent data access;
5. Apply methods to address various database security issues;

REQUIRED MATERIALS:
Textbook:
The main materials covered in class will come from this book.

MySQL Database Management System (https://baelearn.uncg.edu/sql2/)
This will be the primary working environment. Access credentials to the Bryan MySQL server will be provided by the instructor.

Canvas Course Management Systems (https://canvas.uncg.edu)
Course materials, announcements and updates will be posted on Canvas regularly. Students are required to check Canvas daily.

TEACHING METHODS
This course will be delivered online. All teaching materials including lecture notes, assignments, and other leaning resources needed for this course are available on canvas. Students will be required to review all the materials posted on Canvas. To enhance learning both elementary and advanced database issues, techniques and concepts covered in this course, each database topic may be complemented with exercises. Assignments, exams, and a class project will be used to evaluate students’ performances in terms of leaning outcomes.
EVALUATION AND GRADING

Assignments:
SQL programming assignments and database design assignments constitute a major portion of the requirements for this course. Students are required to complete five assignments. Each assignment is due at 11:59pm on the scheduled due date. Assignments submitted after the due date may not be accepted but, if they are based on a valid excuse, there will be a minimum of a 20% reduction for each day late. Please do not procrastinate on the assignments.

Group Project
Each student is required to join a group to work on a database project. More details about the project will be given during the course.

Exams:
This course has two exams, a midterm exam and a final exam. No makeup examination is offered for any reason. If a student must miss a midterm exam and has a written verifiable legitimate excuse for the absence, the weight of that the midterm exam may be allocated to the final. The final exam is cumulative. More will be discussed about the exam.

Determination of Course Grade:
The following provides a percentage allocation of each component:

<table>
<thead>
<tr>

ACADEMIC INTEGRITY POLICY
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. A student is subject to penalty for academic misconduct, such as illicit possession of exams or exam materials, forgery, or plagiarism. Plagiarism is the presentation of the work of another, as one’s own work. Discussing your assignments with other students can be a valuable learning resource; however, each student is expected to do their own original work. It is the student’s responsibility to prove their work is original, if challenged.

All students are required to follow the provisions of the UNCG Academic Integrity Policy (https://osrr.uncg.edu/academic-integrity/) in completing coursework. If you do not know the provisions of the Academic Integrity Policy, make time to study it.
HEALTH AND WELLNESS:

Health and well-being impact learning and academic success. Throughout your time in the university, you may experience a range of concerns that can cause barriers to your academic success. These might include illnesses, strained relationships, anxiety, high levels of stress, alcohol or drug problems, feeling down, or loss of motivation. Student Health Services and The Counseling Center can help with these or other issues you may experience. You can learn about the free, confidential mental health services available on campus by calling 336-334-5874, visiting the website at https://shs.uncg.edu/ or visiting the Anna M. Gove Student Health Center at 107 Gray Drive. For undergraduate or graduate students in recovery from alcohol and other drug addiction, The Spartan Recovery Program (SRP) offers recovery support services. You can learn more about recovery and recovery support services by visiting https://shs.uncg.edu/srp or reaching out to recovery@uncg.edu.

ACADEMIC ACCOMMODATIONS:

The University of North Carolina at Greensboro respects and welcomes students of all backgrounds and abilities. If you feel you will encounter any barriers to full participation in this course due to the impact of a disability, please contact the Office of Accessibility Resources and Services (OARS). The OARS staff can meet with you to discuss the barriers you are experiencing and explain the eligibility process for establishing academic accommodations. You can learn more about OARS by visiting their website at https://ods.uncg.edu/ or by calling 336-334-544 or visiting them in Suite 215, EUC.
