CANVAS
The learning management system used in this course is Canvas. Information about the course including the syllabus, tentative schedule, and instructor’s office hours can be found on Canvas. Further, MAL system shall be used. All updates shall be on Canvas.
TECHNOLOGY REQUIREMENTS
Students must have an ability to perform tasks using:
1. Internet
2. Canvas
3. Microsoft Word or other word processing program
4. Email

STUDENT LEARNING OUTCOMES
Upon successful completion of this course students will be able to:
1. Identify and Calculate transfers subject to the Gift Tax, inter vivos gifts, and understanding the Unified Credit system.
2. Perform key functions in preparing for the Estate Tax, including valuation, deduction, and liquidity issues.
3. Perform key functions in preparing for Trust Tax liability, including simple trusts, complex trusts, special needs trusts and grantor trusts.
4. Explain and Interpret the Generation Skipping Tax and its planning consequences.
5. Explain verbally and in writing the basic aspects of accounting’s role in estate planning. These aspects include the tax compliance, financial planning, and wealth instruments.
6. Explain and interpret key Fiduciary accounting terms.

EVALUATION AND GRADING:
The following criteria will apply to the grading of assignments.

A: Work that demonstrates not only a clear understanding of the material under study, but also a superior ability to utilize that material in the assignment. All criteria are met. The student’s work goes beyond the task and contains additional, unexpected or outstanding features.

B: Work that demonstrates a good understanding of the material under study, and utilizes the material well in the assignment. The student meets the assignment criteria, with few errors or omissions.

C: Work that minimally demonstrates a basic or technical understanding of the material under study, and uses some relevant material in the assignment. Work may not address one or more criteria or may not accomplish what was asked.

D: Work that lacks a basic or technical understanding of the material under study, and uses some nonrelevant material in the assignment.

F: Work that is incomplete, inappropriate and/or shows little or no comprehension of the material under study.

Students who pass this course will have demonstrated to the instructor that they are in a position to both (1) master subsequent coursework in accounting, finance, and other areas which depend upon a basic though solid mastery of skills and concepts which are central to accounting at an introductory level; and, (2) be capable of entering the managerial workforce armed with the skills and understandings of accounting that managerial labor markets would expect of an entry-level holder of a post-baccalaureate degree, diploma, or certificate in a business-related field. The instructor’s satisfaction with these competencies will be measured
through a mid-term exam and a final exam as well as grading of the assignments indicated previously. These exams and assignments will include quantitative measurement of student performance in computational, short-answer, and essay tasks. The type of task will be matched to the specifics of each learning objective. For example, financial ratios demand computational assessment, vocabulary mastery demands short-answer assessment, and institutional and conceptual issues lend themselves to essay-based assessment.

Grades will be assigned according to the following scale:

- 93-100% yields an A in the course;
- 90-92.99% yields an A- in the course;
- 87-89.99% yields a B+ in the course;
- 83-86.99% yields a B in the course;
- 80-82.99% yields a B- in the course;
- 70-79.99% yields a C in the course;
- 69.99% or less yields an F in the course.

The final course grades indicated above will be calculated as follows:
