**Instructor:** Onyi Nwafor  
**Office:** Room 438 Bryan Building  
**Phone:** (336) 256-8587  
**E-Mail:** o_nwafor@uncg.edu  
**Class Time:** Mondays, 6:00 pm – 7.00 pm (Zoom Sessions)  
**Office Hours:** Virtual Office Hours by appointment.

**COURSE DESCRIPTION**
Supply Chain Management (SCM) involves an integrated approach to managing the flow of materials, products, services, and cash from the suppliers all the way to the customers, and sometimes from the customers back to the suppliers. SCM requires coordination between various functional groups within an organization, as well as with entities outside and organization (e.g., suppliers and customers). Achieving such coordination is very challenging for many organizations. The course introduces students to the concepts, issues, and techniques used to design, analyze, and manage supply chains effectively. It also provides a foundation for more in-depth study within the SCM curriculum. Specific topics covered in this course include formulation and design of supply chain strategy, forecasting, inventory management, sales and operations planning, global supply chain network design, and information systems for SCM.

**PRE-REQUISITE COURSES AND REQUIREMENTS**
Admission to the Graduate Certificate in Supply Chain, Logistics and Transportation Management (SCLTM) or some other approved graduate program.

**COURSE OBJECTIVES**
At the conclusion of this course students are expected to:
- Develop an understanding of the strategic role of SCM in the attainment of company goals to achieve competitive advantage and long-term sustainability
- Develop an understanding of issues related to the design, operation, and analysis of a supply chain system
- Develop knowledge of theories and quantitative methods to analyze practical data to support decision-making for supply chain management
- Develop basic understanding of the nature of the supply chain manager’s job

**COURSE TEXTBOOK AND OTHER MATERIALS**
  i. The Pearson eText Access provided in the course page in Canvas
  ii. The UNCG Bookstore, located in the Elliott University Center. On-line ordering is possible through the bookstore.
COURSE STRUCTURE
This course will be taught 100% online. It combines standard e-learning with added Zoom web sessions on designated dates (please see the course schedule at the end of this document for more details).

This course uses a discussion-oriented inverted classroom model, wherein students are responsible for reviewing the course materials posted online BEFORE participating in the instructor-led Zoom sessions. This approach allows time to address more challenging problems and in-depth discussions of the subject matter during the Zoom sessions. **The course includes many assigned readings from the course text and case studies. To be successful in this course, students should be prepared to spend a fair amount of time outside of class reading both the course text and the case materials.** The assigned readings are designed to introduce students to SCM concepts, theories, and methods, while the case studies provide students the opportunity to apply these concepts, theories, and methodologies to real-world problems.

**Canvas**
This course will use UNCG Canvas as a course management tool to post important information. This information includes course syllabus, tests, grades, videos, reading articles, announcements, and such other instructional materials. To access Canvas, visit: [http://canvas.uncg.edu](http://canvas.uncg.edu). Students must have an active UNCG email account to access Canvas. Canvas works best using the Mozilla Firefox browser or Google Chrome. It is the student’s responsibility to check Canvas regularly for important announcements, such as class notes, emails, and grades etc.

**Zoom**
The learning approach combines standard e-learning with Zoom module review sessions. Zoom sessions will be held on selected weeks (see course schedule for more details). Students can access the weekly Zoom sessions via the link provided within the associated course modules on Canvas. On the weeks that they hold, the Zoom sessions will take place from 6:00 – 7:00 p.m. on Mondays. Zoom meetings will serve as module review sessions used to clarify key concepts assigned for the week, and to allow opportunity for knowledge sharing and dialogue between the instructor and students. These sessions will only add to the assigned course materials, and not replace them. **Students must read the assigned course materials before the Zoom sessions!** Every Zoom session is important. Students should endeavor to participate in all. The sessions will be recorded to allow access to students unable to participate in “live” sessions. Students can access the recordings via the link provided in Canvas. The video recordings will not be available until the day following each session.

**Ask your Instructor Discussion Board**
I have created a discussion board, “Ask Your Instructor” on Canvas. Please use this discussion board to ask any general questions you may have about the class, so I can respond to them in public. Chances are that if you have a question, someone else has the same one!

**Case Studies**
The discussion-oriented inverted classroom model requires that students read the assigned course text and/or any case study assignments BEFORE each Zoom session. There is a course packet created on Harvard Business Online, where students can access the cases required for the course. Students will have to register with Harvard Business Online to get access to the course packet. The course packet is available at the following link: [https://hbsp.harvard.edu/import/963748](https://hbsp.harvard.edu/import/963748)

**Quizzes**
There will be a quiz after each Zoom module review session to test participants’ understanding of the module, and to provide an opportunity to practice recognizing key SCM principles and concepts. All quizzes can be accessed via the link provided in the course module on Canvas. Unless otherwise stated, quizzes will be due at 11:59 p.m. on the Sunday following the quiz assignment.
In the event that a technical problem prevents a student from submitting a quiz assignment by the due date, the instructor may grant the student an opportunity to complete the assignment, **strictly on the condition that the student provides evidence of the technical problem** (e.g., a screenshot of the error message clearly showing the date and time the error occurred). It is the student’s responsibility to ensure that he/she captures evidence of the technical error (including **date and time**) at the time that it occurs. Students are therefore advised to ensure that they have a reliable computer and internet access ready before attempting each quiz.

**Discussion Board**
The course discussion board on Canvas will be used to share ideas with other course participants to enhance everyone’s learning experience. Discussion questions will be posted weekly and will relate to the course text or case study assigned to a given module. Discussion question(s) will be open for comments on Canvas on the Monday evening before the due date. Unless otherwise stated, discussion assignments will be due at 11:59 p.m. on the Sunday following the discussion assignment. Each student is required to post a comment by end of day Sunday of the week due.

Discussion Board contribution points will be accumulated based on students’ ability to critically analyze the discussion topic, the usefulness of the observations and suggestions, and the student's ability to put ideas across with clarity and conviction in a succinct and cogent manner. Valid discussion board contributions include both “new” comments and “follow-up” responses to others’ comments. Students are encouraged to read others’ comments before posting their own as points will be awarded for the originality of comments. Follow-up comments that do not include original/alternative viewpoints, or comments that simply agree with or rephrase existing comments attract minimal contribution points. Non-contribution to the Discussion Board will result in a “0 Point” grade for weekly participation.

**Practice Problems Sets**
For the modules that involve significant quantitative analysis, the instructor will typically provide students with practice problems sets. Students are encouraged to attempt the practice problem before attempting worked problems.

**Other Readings**
Supplemental readings and other materials relevant to the course will be posted on Canvas. To access supplemental materials described as “eReserves” (e.g., Module 07 reference), students must first navigate to the relevant modules in Canvas and then follow instructions to log in to Box (from within Canvas). Once logged into Box, the eReserves will become accessible from within Canvas.

Students are also encouraged to keep abreast of current events that are relevant to the subject and attempt to relate them to course materials.

**Exams**
The course includes two exams. Students will have a 2-day window to complete each exam. The dates for the exams are shown in the course schedule.

**Grades**
The point allocation and resulting letter grades for the course are detailed below:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage of Overall Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exams (2 exams, 30% each)</td>
<td>60%</td>
</tr>
<tr>
<td>Module Review Quizzes</td>
<td>20%</td>
</tr>
<tr>
<td>Discussion Questions</td>
<td>20%</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
</tr>
</tbody>
</table>

3
The required performance for each letter grade is given below. Note, that final grades averages are not rounded off to the next higher integer. For example, a 92.99 is an A-, not an A.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93-100 %</td>
</tr>
<tr>
<td>A-</td>
<td>90-92.99 %</td>
</tr>
<tr>
<td>B+</td>
<td>87-89.99 %</td>
</tr>
<tr>
<td>B</td>
<td>83-86.99 %</td>
</tr>
<tr>
<td>B-</td>
<td>80-82.99 %</td>
</tr>
<tr>
<td>C+</td>
<td>77-79.99 %</td>
</tr>
<tr>
<td>C</td>
<td>73-76.99 %</td>
</tr>
<tr>
<td>F</td>
<td>Below 73 %</td>
</tr>
</tbody>
</table>

**GENERAL**

**Office Hours**
The instructor’s virtual office hours are set up to assist with students’ understanding of the material. Students are STRONGLY encouraged to contact the instructor at the first sign of any problem or lack of understanding. Do not wait until it is too late! Students are encouraged to post questions under the “Ask your Instructor” discussion forum. The instructor will respond to all questions posted on this forum within 24 hours. To avoid repeat questions, students are encouraged to review the discussion forum before posting questions.

**Make-Up Exam Policy**
Exams may not be missed for the convenience of the student. The exam dates are published in the course schedule and it is expected that students will schedule their other activities around these exam dates. If an exam is to be missed due to approved university reasons, students must inform the Professor before the exam (if not possible, no later than 24 hours after the exam) and must furnish the Professor with the original documentation (copies will not be accepted) why the absence should be excused. There will be no make-ups for missed exams without a university approved excuse. If excuse is approved, students are allowed to take the exam on the date agreed by the Professor and the student. The make-up exam will cover the material of the missed exam and the new material that is covered prior to the make-up exam date. The format of the exam may be different from the exam given to the rest of the class. An exam, whether regularly scheduled or make-up, that is missed without an approved excuse will be assigned a grade of ZERO.

**Student Responsibilities:**
The student is expected to actively participate in all electronic discussions and complete all assignments on schedule. Failure to participate will result in a lowering of a student’s average.

**UNCG Academic Integrity Policy**
By submitting an assignment, each student is acknowledging their understanding and commitment to the Academic Integrity Policy on all major work for the course. Refer to the following URL: [https://osrr.uncg.edu/academic-integrity/](https://osrr.uncg.edu/academic-integrity/)

**Accommodations/ADA Statement:**
UNCG seeks to comply fully with the Americans with Disabilities Act (ADA). Students requesting accommodations based on a disability must connect with the Office of Accessibility Resources and Services (OARS) in 215 Elliott University Center, (336)334-5440, oars.uncg.edu.
UNCG STATEMENT ON COVID

As we return for Fall 2022, all students, faculty, and staff and all visitors to campus are required to uphold UNCG’s culture of care by actively engaging in behaviors that limit the spread of COVID-19. While face-coverings are optional in most areas on campus, individuals are encouraged to wear masks. All individuals and visitors to campus are asked to follow the following actions:

- Engaging in proper hand-washing hygiene.
- Staying home when ill.
- Complying with directions from health care providers or public health officials to quarantine or isolate if ill or exposed to someone who is ill.
- Completing a self-report when experiencing COVID-19 symptoms, testing positive for COVID-19, or being identified as a close contact of someone who has tested positive.
- Staying informed about the University's policies and announcements via the COVID-19 website.

Students who are ill, quarantining, or isolating should not attend in-person class meetings, but should instead contact their instructor(s) so alternative arrangements for learning and the submission of assignments can be made where possible. As we continue to manage COVID-19 on our campus, we are following the lead of the local health department and we will adjust our plans to balance student success, instructional requirements, and the hallmarks of the collegiate experience with the safety and wellbeing of our campus community.

*****HAVE A GREAT SEMESTER!*****
